

Norma Jean, If It's All The Same To You

If it's all the same to you if you don't love me like before
I don't think I'll hang around and let you hurt me anymore

If it's all the same to you if your love has really gone
Pardon me while I walk out pick up my heart and move along
I'll bet somewhere I'll find someone I can thrill with my kiss
If it's all the same to you and I sadly think it is

(piano)

If it's all the same to you if your love has really gone...
I sadly think it is
