

# Norma Jean, If It's All The Same To You

If it's all the same to you if you don't love me like before  
I don't think I'll hang around and let you hurt me anymore

If it's all the same to you if your love has really gone  
Pardon me while I walk out pick up my heart and move along  
I'll bet somewhere I'll find someone I can thrill with my kiss  
If it's all the same to you and I sadly think it is

( piano )

If it's all the same to you if your love has really gone...  
I sadly think it is
