

Norma Jean, Only Way To Hold Your Man

It's getting hard to hold your man today and you've got to be a woman all the way
If you find you're having trouble holding on
Here's one sure way to keep your man at home

The only way to hold your man is in your arms
Give him comfort give him love keep him warm
Rock him gently like you're rocking your first son
The only way to hold your man is in your arms
(steel)

It's good to keep the house all shine and clean
That's not all it takes if you know what I mean
Save the time each night for I love you that's what your man is looking forward to
The only way to hold your man is in your arms...
The only way to hold your man is in your arms
