

# Norma Jean, Please Don't Hurt Me

I can't stand another broken heart please please don't hurt me  
One more hurt and I'll just fall apart please please don't hurt me  
I've been down as low as a heart could ever go torn all apart and so lonely  
When I'm in your arms I'd lose control please please don't hurt me  
( steel )  
Are you really mine to have and hold please please don't hurt me  
Give me all your love I needed so please please don't hurt me  
I've been down as low...
