

Norma Jean, Searching (For Someone Just Like You)

Searching I've spent the lifetime darling searching looking for someone like you
Dreaming in all my dreams I dream that someday I'll find someone just like you
Other loves have come my way but they were not for me
Tell me that you're here to stay don't ever set me free
Cause I've been searching I've spent the lifetime darling searching
Looking for someone just like you
[fiddle]
Other loves have come my way...
