

# Norma Jean, Searching (For Someone Just Like You)

Searching I've spent the lifetime darling searching looking for someone like you  
Dreaming in all my dreams I dream that someday I'll find someone just like you  
Other loves have come my way but they were not for me  
Tell me that you're here to stay don't ever set me free  
Cause I've been searching I've spent the lifetime darling searching  
Looking for someone just like you
