

# Norma Jean, Somebody's Gonna Plow Your Field

I'm a woman and I'm a human there's times when I need someone  
To hold me close and give me lots of lovin'  
Well lately that is somethin' that you ain't done  
Baby I'm giving you just fair warning you better hold up your head up this deal  
Cause big boy I ain't jokin' if you don't tend your crops  
Somebody's gonna plow your field  
As time goes by your luck is growing colder and honey day by day I need you more  
Well lately I've been gettin' lots of offers from men who seem to know the score  
Well how much long can I fight temptation holdin' back the love they wanna steal  
Big boy I ain't jokin' if you don't tend your crop somebody's gonna plow your field  
( steel )  
As time goes by...  
Well big boy I ain't jokin' if you don't tend your crop  
Somebody's gonna plow your field
