

Northern State, Away Away

Away Away

i took it one at a time
you pushed me over the line
and now i'll leave with what's mine
i'll see you on the way out.
things that you said to me
things that i couldn't see
you took my kisses for free
i'll see you on the way out

when you're talking your fingers are walking
away from me
away away away

and i swear that it's you boy...

you want to get back step back in it with me
but i'm too wound up now to watch tv
wanna run wanna rock right - maybe rock all night
maybe call you later, maybe see you later maybe
now i don't know what to call you if i don't call you baby
wanna get high, sparks fly, look me in the eye
now the thrill is gone and i'm calling you out
i'll see you on the way up
you see me on the way out.

see that look on my face
my things all over the place
feeling like a disgrace
so see me on the way out

don't forget it was mine
don't forget all this time
you couldn't drag me away
so see me on the way out.

chorus

you're driving away from me now
you turn away away from me now
you're so far away from me now
and you're gone away from me now

where you goin boy can you take me with you?
guess you can't catch a vibe everytime i kiss you
i miss you - see i don't wish to dis you
can't you stay right here until i dismiss you
where you going boy are you coming right back
i'll be sitting here waiting working on a new track
you're all packed i guess
i think it's for the best
cause now you're on the way out
and so is all of my stress

chorus
