

# Not By Choice, Humble

I fuck up once or twice a day  
Nothing ever seems to go my way  
(Nothing ever seems to go my way)  
Just when things are going right  
I can't sleep I'm staying up all night  
(I can't sleep at all tonight)

You say I don't have any luck  
You say I don't have any luck

I know that you're right  
But I don't want to fight  
That is all I want today  
I wish I had more luck  
To get out of this rut  
That is all I want today

Sleep in every single day  
Why can't everybody go away?  
(why can't everybody go away)  
Just when I have found my way  
No regrets and everything's ok  
(but everything is not ok)

You say I don't have any luck  
You say I don't have any luck

\*Chorus\*
