

Notarthomas Jamie, Big Blue

You think you love me baby, I say you don't
You think that true love lasts, but I say this won't
How long will it take before you say the same thing she said
And her before that, and her before that
You're through... me too... Big Blue
They say that love is simple, that love is kind
That love is never boastful, conceited or blind
That love is never ending like the circle of a ring
But sometimes I really wonder if there ever was such a thing
So you're through... me too... Big Blue
How much time wasted begging for quality time
You want love and affection and quality time
You like my freedom, and so you take it
My independence that is what you say
Do you want me, love, or quality time
So you think you love me baby, I say you don't
You think that true love lasts, but I say this won't
It might take a year, a month, weeks, days, hours, minutes, seconds
In fact I think I hear it coming right now
You're through... me too... Big Blue
