

# Nouveaux Classix, Never Never Comes

Imagery  
We never come to see is blind  
Far outside  
The covers we hide behind

Daylight  
Turning into deep night  
Insight  
Forever you know

Never never comes  
Never never comes  
Never never comes  
Never never comes

Somewhere far  
We used to be we are and proud  
Visions we can  
Never come to see are loud

Daylight  
Turning into deep night  
Insight  
Forever you know

Never never comes  
Never never comes  
Never never comes  
Never never comes

Never never comes  
Never never comes  
Never never comes  
Never never comes
