

Novi Ierusalim, Such A Mighty God

We search for the answer
But all our labor's in vain
The mystery questions
Forever remain
We wanna be loved
And nothing else satisfies
Is there anyone
Who really cares about us

Such a mighty God
Standing right at your door
(that) Invisible door

Such a mighty God
He's standing right at your door

We search for the answer
We don't know where else to go
There is something greater

More than we know
Don't wanna be blind
Our future is covered in dust
Is there anyone
Who really cares about us

He's there
He's there
He's there now
