

NRG, Cheer For Korea's Men

Go forward (I want you go)
Awaken (I want you fly)
Become one and conquer
Go, Korean men!
Everyone come together (I want you go)
And sing (I want you fly)
Come hand in hand
Go, Korean women!
RAP) You're [meaning the team] the center of our public mind
Don't suspect, Unite and make a decision
Turn the ignition of my heart on
Let it spread with the sound of the sirens, Rpm Power
Don't refrain
Go out far 1 Step 2 Step
Continue to step forward
Outside, to the front, to the side
Don't stray from the path, stay on the world's road
We lead even in elegance
With linked arms, we'll come through
Number one in manners; gentle, scholar, queen
Looks and body, Korean women are the best
Your flame has spread
With everyone's support, my endurance grows stronger
I can see the essence of dancing, spread your talent
In the end we'll succeed, like a burst of great fortune
Don't hesitate, just give it your best
With the power that fueled your flame
Don't turn away any longer, your world awaits
Clear your mind and just move forward
Let's go boating (it's fishing season)
Keep on rowing (over there)
Bounce your shoulders, feels good
Go, Korean men!
Let's go boating (it's fishing season)
Keep on rowing (over there)
Bounce your shoulders, the acclaim sounds good
Go, Korean women!
RAP) Life can be hard at times
When something that usually works out doesn't, it can get you down
Your life's schedule is rough and bumpy
I'll push you from behind so continue forward
In the face of future evil, if you're about to fall off your course,
No matter what others tell you,
The ability to withstand it is strength. Our own resolution,
Ambitious and brave, that's your attitude
Savor the moment, just for today
Forget about everything, Happy tonight
Shaking your head, Sensation
Music is our form of Communication
If you want bold women and dignified men
we'll take you there at once
Don't analyze from every angle, don't pay attention to the others
Hold your hands above your head (eusha eusha)
Don't regret anything, give it your all
With the power that fueled your flame
Stand up again, your future awaits
Clear your mind and just move forward
Go forward (I want you go)
Awaken (I want you fly)
Become one and conquer
Because there's still some pain left
Because pain is reality
I know it's not enough, but lean on my shoulder
Shout to the sky

I'm going to fly
Don't hesitate, just give it your best
With the power that fueled your flame
Don't turn away any longer, your world awaits
Clear your mind and just move forward
Let's go boating (it's fishing season)
Keep on rowing (over there)
Bounce your shoulders, feels good
Go, Korean men!
Let's go boating (it's fishing season)
Keep on rowing (over there)
Bounce your shoulders, the acclaim sounds good
Go, Korean women!
