Stop me Stop Stop Stop I want to leave Go Go Go  
Get away from me Don't go away uh one two  
Stop me Stop Stop Stop I want to leave Go Go Go  
Get away from me Don't go away uh one two  
(Rap)

Day by day the time repeats itself  
People are like machines rapidly turning  
How can I escape from this place  
Cant I get away from my life?

But no one can help me and I myself cant win over this lifestyle  
Im getting exhausted just hoping that someone will save me  
But theres a person who tries to live by me, and thats you  
You drag other people in your life so you can survive, thats how you live  
In a world that gives no choice but to leave you exhausted,  
As you wander and run about, waiting for someone...

Do I have to escape from this dream?

Give me break You tell me to rest, that its too hard for me no no  
Give me break But dont interfere with me, please forget me

Stop me Stop Stop Stop I want to leave Go Go Go  
Get away from me Don't go away uh one two  
Stop me Stop Stop Stop I want to leave Go Go Go  
Get away from me Don't go away uh one two

(Rap)

The time has come now (get ready)

I cant wait any longer (hurry up)

Quickly get up from your seat right now

Dont look back and quickly run forward

Theres no need to keep the lingering attachment

Go so you can climb on top of the passing time

Run, its getting late. Its ok if you sweat drops of blood

Dont stop, dont wait

Dont be comfortbly wrapped in the things that make you lazy

If you withstand it a little more, you can live comfortably

To my freedom. If you escape from this place you can soar across the skies

Even if others say things, I can do it

Im ready now, I can fly higher now

Give me break You tell me to rest, that its too hard for me no no

Give me break But dont interfere with me, please forget me

I'll sacrifice my heart for you to dry my tears

Give me break You tell me to rest, that its too hard for me no no

Give me break But dont interfere with me, please forget me

Stop me Stop Stop Stop I want to leave Go Go Go

Get away from me Don't go away uh one two

Stop me Stop Stop Stop I want to leave Go Go Go

Get away from me Don't go away uh one two
