NRG, I Can Run

Until my breathing stopped
I only desired for you and loved you but
In this world, nothing truly lasts forever
When loves becomes hatred, look at me
Why I had only loved you
I let the time pass as it hurts like this but
I want to thank you because you made me stronger. Just kick it!
Occasionally you told me
That you can't love
Your friends look at me and sneer
But thats a mistake, you'll never know me
Oh~ It was very tiring Say ye yeah
I've become stronger, I've no need to hide
I'll become different, I only look before me, and I run
I can run, I'm always number one
My life I value and for love (I have no interest in you anymore)
I can run, I'm always number one
My heart that was always fed up, and the tears that fell (I hate your love)
Your expressions are always the same
If you live like that, your life is only shameful
Try it once, ignore it, neglect everything
You think you're better ha! Thats a big mistake
You say you know love but
You're still immature
So immature that you laugh at things that aren't even funny
I'll erase everything and give up all my grudges
Oh~ It was very tiring Say ye yeah
I've become stronger, I've no need to hide
I'll become different, I only look before me, and I run
I can run, I'm always number one
My life I value and for love (I have no interest in you anymore)
I can run, I'm always number one
My heart that was always fed up, and the tears that fell (I hate your love)
I'll return all the pain, sorrow, everything (I'll give it to you)
I can love I wish I could tell you but I want to forget the love you crushed (I hate your love)
I can love I'll return all the pain, sorrow, everything (I'll give it to you)
I can love I wish I could tell you but I want to forget the love you crushed
I can run, I'm always number one
My life I value and for love (I have no interest in you anymore)
I can run, I'm always number one
My heart that was always fed up, and the tears that fell (I hate your love)
