

NRG, My Girl

I wanted to know, but the thing that I didnt know was your heart
I loved you but I couldn't tell you because of my racing heart
I waited for such a long time for this moment to come
For a long time I've looked at you and I want to tell you my heart now
Yes I wanna be close to your love
I dont know you yet but I want to get to know you now
I'm falling in our love Always only you
Stay beside your eyes I will love by your side
I want to confess to you, I forever love you
You're always my girl

(Rap)

I finally confess to you. I'll give you all of my hidden love
Im getting ready for today Ready to Love, I take courage
Sunshine Day In my journal, I noted my master plan to confess to you
Hold my hand now, show me your heart
I watch over you from far away, the paths that you take
All the things you do, I just looked at from far away
Yes I wanna be close to your love
I dont know you yet but I want to get to know you now
I'm falling in our love Always only you
Stay beside your eyes I will love by your side
I want to confess to you, I forever love you
You're always my girl
Now Im sitting across from you
And I will promise you that we will be forever
Yes I wanna be close to your love
I dont know you yet but I want to get to know you now
I'm falling in our love Always only you
Stay beside your eyes I will love by your side
I want to confess to you, I forever love you
You're always my girl
