

# Nu Flavor, Promise

Through the storm and the rain  
Through the joy and through the pain  
I promise to love you, 'til the end of time  
And I want you to promise, that you'll always be mine

[Chorus:]

Promise to love you, stay by your side  
Place no one above you, you will always be mine  
I'll never hurt you, I'll never lie  
Promise to protect you, always stay by your side

Baby baby, can't you see  
That from the first time I saw you, I'm in love  
And now I've got to let you know how I feel  
And now it's time to let you know that you are

More than I ever dreamed for  
Someone that I can adore  
You have me feeling feelings I've never felt before  
So won't you give me a sign  
To know that soon you'll be mine  
I'll give you my heart, my soul, my love

[Chorus]

Baby baby talk to me  
Girl you gotta let me know how you feel  
'Cause all of this love I have inside is for real  
And now the time has come to let you know that

I make this promise to you  
My heart will always be true  
And I will give all my love and devotion to you  
When all is sad and done  
Two hearts are better than one  
Deep in my heart I'm  
Hoping that you're feeling it too

[Chorus]

I promise I'll be there for you  
I swear my love will always be true  
I will stay right by your side  
Forever till the end of time

[Chorus]
