

Nu Virgos, Every Day

Every morning with the rising sun
I will wake you up
Like a ray of light
Every evening when the sun goes down
I will be your only one

And this song is just another
Hundred moments of my love

Every day's a new beginning
Every day I'll find some words you want to hear
Every day I'll find a meaning
For as long as you are here

Every winter I will keep you warm
I will be your home in the heart of storm
Every summer I will hold your hand
Just to be your wonderland

And this song is just another
Hundred moments of my love

Every day's a new beginning
Every day I'll find some words you want to hear
Every day I'll find a meaning
For as long as you are here

And this song is just another
Hundred moments of my love

Every day's a new beginning
Every day I'll find some words you want to hear
Every day I'll find a meaning
For as long as you are here

Every day's a new beginning
Every day I'll find some words you want to hear
Every day I'll find a meaning
For as long as you are here
