

# Nuclear Assault, To Serve Man

Politicians' plastic grin  
Talking with that alien  
We can rest our troubled minds tonight  
No solutions here on earth  
The president's a fucking jerk  
Now the answer's coming from the sky

Oh are the heavens dropping in  
To save us from destruction of ourselves,  
Or have they come to serve man  
Armed with a cookbook straight from hell

Saucers come to save our nation  
Touching down at Union Station  
Holding summit meetings on the lawn  
The Weekly World was on the ball  
The Post and Tribune missed it all  
Wait a minute where was I?

Oh are the heavens dropping in  
To save us from destruction of ourselves,  
Or have they come to serve man  
Armed with a cookbook straight from hell

Now we know from even higher  
Which candidate's a bigger liar  
From bad to worse who cares who wins the fight  
Don't think I remember when  
You couldn't trust alien  
With propaganda left and right

Oh are the heavens dropping in  
To save us from destruction of ourselves,  
Or have they come to serve man  
Armed with a cookbook straight from hell
