Nuclear Assault, When Freedom Dies

United in a time, a time of need
Against a common foe, the enemy
The years of death endured, the years of pain
Against an evil force, a force not sane

We become the enemy!
When freedom dies for security

And then the world endured, a victory won
Against an insane man and his cohorts
But once the war was done, blind fear prevailed
And years of darkness came, freedom was nailed

We become the enemy!
When freedom dies for security

We let our freedom die, we let it wane
We feared an enemy's atomic rain
But what was on our minds, what we became
We and the enemy
We are the same!

We become the enemy!
When freedom dies for security
We become the enemy!
When freedom dies for security
