

Numic, My Enemy

loosen your grip on this feeling
it's time to rethink how long you're
giving up on life

your seclusion has brought the world down
don't you blame me
I'm not the reason your fucking eyes don't see
the social-phobic, the maleficent cries
there must be a new sign

(Chorus)

Get this through your head and back around again
stick this up your ass and out your mouth and then
become my enemy

pacing so much time waiting
it's just a failsafe form for giving up on life

(repeat pre-chorus and chorus)

listen, listen well my enemy my enemy
hold this wreck you've kept
I'll mold you better than you were
all we came to witness
is this attack on you affinity

(repeat chorus and pre-chorus)
