

Numic, Unconditional

who's this angel?
you would live for me
I've kept you in my heart
who's my ember?
I would wipe you clean
you'll never be alone
who's that smiling down on me?
find a way come and help find peace for me
who finds love like I to never wash away?
I am only here because you've seen

(chorus) you've been loving me sweetly
I won't turn my sight
never alone or cold

I was blind and I find I am

you're this angel never looked away
I felt this in my heart
you won't let me down you never wiped away
any trace of love you gave to me

(chorus)
