## Nylon Beat, Guilty

Catch your neighbours are waking In the neither love them nights I guess you didn't have a clue

Now capture and taken The call without the fights Cos' it call 911 too soon

I can't stop loving first degree I can denying: Must be me To tell the truth This crime felt good I'm almost guilty, guilty, guilty, guilty

How can they judge somebody's heart Conviction victim behind bars I swear it's true There's only you I must be guilty, guilty, guilty, yeah

I was there at your backdoor Trying to get a view I just can't keep my eyes off you

I had to see avid more Well, that is nothing new And now I choice of what I do

I can't stop loving first degree I can denying: Must be me To tell the truth This crime felt good I'm almost guilty, guilty, guilty, guilty

How can they judge somebody's heart Conviction victim behind bars I swear it's true There's only you I must be guilty, guilty, guilty, yeah

I can't stop loving first degree
I can denying: Must be me
To tell the truth
This crime felt good
I'm almost guilty, guilty, guilty, guilty

How can they judge somebody's heart I swear it's true There's only you I must be guilty, guilty, guilty, guilty

I can't stop loving first degree I must be guilty, guilty, guilty, guilty Yeah
