

O.C. Supertones, Father's World

The only way I know is just to rip it
Oc west coast never comin' with a slick hit
Everything is low-fi the music makes me so high
Comin' from my heart just like I first came out of long i
As the seconds go by allow me just to speak my
Thoughts on many topics all pertaining to the most high
As the music rocks on just let me get my rock on
The preacher gets his talk on we all get our walk on
The whole thing is just lovely so beautiful it's ugly
Gather like a rally put it down for southern cali

(chorus)

This is my father's word whoa let me ne'er forget
That though the wrong
Seems so strong
He is the ruler yet

The supertones rock your world
Supertones rock your car
We got mad plans like hannibal or just george peppard
That's a reference to the a-team
The dream team with the sure shot
If you will allow us we'll break you out like murdock
Rockin' is my occupation
I could blow for longer than the birth of a nation
If there's ever been a question of my dedication
Tremble now before the power of my vibration

Let me keep this very simple every sould is a temple
Who gets the glory there the prince of the air
Or maybe your career
Whom is it that you fear not fear like a gun
but like the heat of the sun
If you fear God then you're wise keep your eyes on the prize
Learn to tell the truth from lies live with no compromise
I like the sound of that now keep yourself on track
Against the tide like luther and we'll never take it back
In this world there will be trouble
And there will be trials but don't fibe up the struggle 'cause
It's only for a while
