O-Town, Been Around The World

Been Around The World

Hey, yea, oh
Well it's been four lonely days
And Three lonely nights
Looking for my baby
But she's nowhere in sight
You see I've traveled far and wide
I've seen the finest places
What does it all amount to,
When there's no familiar faces?

You see I've been around the world and I
I can't find my lover
Been around the world And I
I don't know where she can be
Been around the world And I
I can't find my lover
Been around the world And I
I can't even find myself

Hey yea oh

Well I don't know where I am
And I don't know who I'm with
All I'm hanging on to
Is that good loving that you give
You see I've lost my sense of time
And I got no direction
Sending out a signal
To try an to get your attention

You see I've been around the world And I
I can't find my lover
Been around the world And I
I don't know where she can be
Been around the world And I
I can't find my lover
Been around the world And I
I can't even find myself
☐
Hey you know what I'm talking about
I'm not the only one who's feeling down and out
Noises faces
That covered up my mind
I'm looking for traces
That'll lead me to a place that I can find
My lover, my lover
My lover, my lover

You see I've been around the world And I
I can't find my, (my lover my lover)
Been around the, (yea)
And I can't even find myself
You see I've been around the world And I
I can't find my lover, (been around the world)
Been around the world tonight, (been around the world)
And I don't know where she can be,
(No, no, no. Don't know where she can be)
(Yea) Been around the world And I
I can't find my lover, (my love)
Been around the world And I
I don't know where she can be
Been around the world And I

(Yea) I can't find my lover
Been around the world And I
I don't know where she can be, (don't know where she can be)
Been around the world And I
I can't find my lover, (my lover)
Been around the world And I
And I can't even find myself

Well it's been four lonely days
And Three lonely nights
Looking for my baby
But she's nowhere in sight.
