

# O-Town, Easy Way

Hey cutie

Hey baby

You and me haven't been getting along too much lately

If I seem like I got other things on my mind, you're right

'cause I'm torn inside

The very next girlfriend

Who's been on my mind

What can I say?

There's never an easy way

To say what I gotta say

There's never an easy way

Gotta look you in the face

You lookin' at me, me lookin' at you

Both of us know what we gotta do

And girl, there's never an easy way

It's really not funny girl

It could've gone the other way

You know it's gonna hurt no matter what I say

You can blame all you want, and that's ok

You're gonna cry a river, girl

But tomorrow's another day

There's never an easy way

To say what I gotta say

There's never an easy way

Gotta look you in the face

You lookin' at me, me lookin' at you

Both of us know what we gotta do

But girl, there's never an easy way
