

# O-Town, Every Six Seconds

Every six seconds

Every six seconds

Baby I can't stop  
My mind from slipping  
Every Six seconds or less  
Preoccupation with the opposite sex  
And you're the one I blame  
For making me go missing  
I think of you in different ways  
Fourteen thousand times a day

Victoria's Secret I've been keeping  
And its getting harder all the time  
I can't keep it undercover  
I need your soft lips kissing mine

Chorus:  
Every six seconds  
My body start begging  
Your sweet thing is wreckin' me  
Untill you give me some  
Ten times a minute  
Six hundred times an hour  
Another cold shower  
Until you give me some (until you give me some)

I picture you  
In red Mac lipstick  
Smudgin' all over me  
Leavin' a mark on my fantasy  
Or swimming in water  
Wearing nothing but moonlight  
Both of us soaking wet  
Splash  
Halfway to the towel  
That's as far as we get

Victoria's Secret I've been keeping  
And its getting harder all the time  
I can keep it undercover  
I need your soft lips kissing mine

Chorus

Every six seconds  
My body start begging  
Your sweet thing is wrecking me  
Until you give me some  
Ten times a minute  
Six hundred times an hour  
another cold shower  
Until you give me some

Every six seconds  
My body start begging  
Your sweet thing is messing me  
Until you give me some  
Ten times a minute  
Six hundred times an hour  
Girl, you've got the power  
Until you give me some

Thoughts of you keeps swimming through my brain

Baby night and day and I  
Cannot concentrate on anything  
but this urge I have inside

Every six seconds  
Every six seconds  
Until you give me some  
Every six seconds  
Every six seconds  
Until you give me some

Chorus 2x

Every six seconds
