

O-Town, Meant For You

Wake up in the mornin'
And I can't wait to see your face
Never been this happy in all my life
Took a sip a water and laid gently by your side
Praying that the sun would never rise
A loving kiss upon you your cheek before you wake
I laid back and watched you sleep
Then I write this love song to tell you one more time
How I love you and I need you in my life
Ohh
There's one thing I have to say

Chorus:
Cause I can't live without you
I can't breathe without you
Can't see my life without you
I have no reason to doubt that you were meant, meant for me
and I was meant for you

Cause I was meant for you
oohh
Cause you were meant for me
oohh
Cause I was meant for you
oohh
Cause I was meant for you
