

O-Town, Shelli's Song

There's something in the way
Your eyes stare through mine
That says things will stay this way
You'll lose your heart and fall behind
You may speak a thousand words
But a picture's in my mind
Empty words and empty promises
Please don't say good-bye

So come back to the days
And spend them for awhile
And spend some time away
While the years pass us by

And if we don't ever make it
Together in our lives
Just know I loved you all along...
