

OAG, Sweet Fa

Where have been? You didn't send me your mail
I was falling in love living under your spell
Where was the scene? They come and they go.

(Bridge)

Well you (I) know I (you) know we all need to grow
Two lovers (people) cant always feel the same
opposite attract will just drive us inflame
yeah I (you) know, you (I) know we all need to go (everything must go)
yeah they know we know it's not the end of (the show)

Well, do you still remember?
It was at the end of December
While we were holding kind a celebrating like as,
like as if we own the time.

What have you done?
While we were still having fun
I was sleepin'; daylight tripin'; under one sun
Where is your friend when there was no choice in your hand?

(Repeat Bridge)

Do you still remember?
Melody was murder and dismembered
while we were dancing to the some celebrating like as
Like as if we own the time (3x)

We all need to go now
We all need to grow,
We all need to go

Do you still remember?
Harmony was murder and dismembered
While we were singin'; day and night
Re-recording like as
Like as if we own the time
Do you still remember it was at the end of December?
we were holding kind a celebrating like as,
Like as if we own the time
Do you? Do you? Do you? Still remember?
Like as if we own the time (3x).
Its not the end
