Oakey Philip And Moroder Giorgio, Be My Lover

My taste's a little strange

I've been told

You're the kind of person

I want to hold

You'll never be a picture

I don't care

I've been looking out for you

Everywhere

Be my lover now

Be my lover now

You make me feel so hot

I want you so

Will I always love you?

I don't know

There may be no tomorrow

Anyway

Let's forget the future

And live today

Be my lover now

Be my lover now

I'm tried of trying

Tired of lying

Letting pride get in my way

I'm going to speak true

I really want you

I've got nothing else to say

Be my lover now

Be my lover now

Be my lover now

Be my lover now

I'm tried of trying

Tired of lying

Letting pride get in my way

I'm going to speak true

I really want you

I've got nothing else to say

Be my lover now

Be my lover now

Be my lover now

Be my lover now

So if you need somebody

Just let it flow

I'm waiting for your answer

Let me know

I want to be your lover

Right away

If you want me, baby

You've got to say

Be my lover now

Be my lover now
