Oasis, Stop The Clocks

Stop the clocks and turn you love around
Let your love lay me down
And when the night is over they'll be no sound

Lock the box and leave it all behind
On the backseat of my mind
And when the night is over where will I rise?

And what if I'm already dead
How will I know?

Lost inside my head behind the wall
Do they hear me when I call?

And when the night is over
Where will I fall?

But if I'm already dead
How will I know

Stop the clocks and turn you love around
Let your love lay me down
And when the night is over they'll be no sound

And now the night is over they'll be no sound
And now my fight is over there'll be no sound
