

Oasis, Strange Thing

Here lives a pocket full of lives with no future
Take it for what it is, it's only drunken lies
You should open up your mind, look to the future
You could be waiting for the ship that sails you home
I'm going home

What would you give me for the songs that I've been singing
How could you ever say that you've got more than me?
Mick says that he can never get no satisfaction
These days I think I know exactly what he means
What does he mean?

You won't get
You don't get
What you need
Life is a strange thing

You won't get
You don't get
What you need
Life is a strange thing now

Here lives a pocket full of lives with no future
Take it for what it is, it's only drunken lies
You should open up your mind, look to the future
You could be waiting for the ship that sails you home
I'm going home

You won't get
You don't get
What you need
Life is a strange thing

You won't get
You don't get
What you need
Life is a strange thing now
