

Oblivion Dust, Faces Of You

A clean dose
Anti adrenaline
A new breed
A special specimen
You see me look
I'm looking down at you
A pretty face
But it ain't the face of you

I envy you
You are so Hollywood
Fake little smile
Is this your newest look?
Your tired skin
You need to stretch it out
I see a freak and it looks just like you

Slip away and waste away
It's all you can do
You are a pretty monster inside the little picture

An overdose
Of every vitamin
Pure greed
So very feminine
Your tiny skin
Why don't you stretch it out?
Cutting it up, twisting it round, glueing it on

Slip away and waste away
It's all you can do
You are a pretty monster inside the little picture
Slip away and waste away
It's all you can do
You are a pretty monster inside the little picture

Delete your image
Clean the wreckage
You're a lovely failure
Delete your image
Clean the wreckage
You're one ugly f**ker

Don't cry
Don't cry
You won't die
Don't cry
