

# Ocean Blue, Sublime

Another radical dream  
becomes a long  
lost friend  
Beneath the rhythm  
and sound  
lies another meaning  
And if you ask me today  
to say just what  
I'm thinking  
You might flee my reply  
and run upwards and  
run downwards  
It was so sublime  
This entangled  
up dream  
still plays on illusion  
Trying hard to escape  
more jangled delusion  
And if you ask me today  
and you wonder why  
It's not just what  
you think  
it grows outward  
and it holds you  
It's so sublime  
This American dream  
becomes elusive  
if you're ready or not  
it may reach out and  
grab you  
And if you ask me today  
and you ponder life  
you might flee its reply  
and run upwards  
and run downwards  
It was so so so ba ba ba  
lime m.
