

Ocean Colour Scene, Debris Road

She nails down moon beams
And talks in double time
Stumbling down to wherever she goes
I live in the meantime
And I get frustrated
So I put my wagger on Debris Road
It keeps me running down Debris Road
I'm not scared but it's somewhere I cling to
All the places I (still) wanna go
They won't cast a shadow on my Debris Road
I get frustrated looking for moonbeams
They always fall where I never go
'Cause I like the daylight and I like a good life
Running so fast down Debris Road
(Repeat Chorus)
Someone got moonfaced and someone gets tearful
Talking so much that they really don't know
Sitting up all night singing songs 'till daylight
Striking a match with the devil below
(Repeat Chorus)
