

Ocean Colour Scene, I Wanna Stay Alive With You

I'm not one to judge that much
And anyway I just wanna get high on you
But thirteen year old girls in hotels on the other side of the world
Seems a little much for me
Yeah, I wanna stay alive with you...
But they look you in the eye
And anyway they'll always slip a smile at you
But thirteen year old girls in rat-holes on the other side of the world
They're gonna lie to you
Yeah, I wanna stay alive with you...
Free-runs in a town where the boys and girls are settling down for the night
To make up and make eyes at you
Yeah, I wanna stay alive with you...
