

Ocean Colour Scene, Is She Coming Home

so i said i'm on the roam so i need a car
and i know that i'm getting alive
and i say i got faith and a season
and i say that's where i'm going too

CHORUS

i get a need and i'm wanting to please it
i got a face and i'm wanting to feel it
the more i feel is the more that i need it
the more i need is the less i believe it
well i want a good love on my side
keep on getting out love and my pride
and i know i keep hurting my love, yeah
but i know it ain't killing

CHORUS

so i said i'm on the roam soi need a car
and i know that i'm staying alive
and i know that faith is in my season
and i say that's where i'm living
