

Ocean Colour Scene, These Days I'm Tired

These days I find I'm picking up all of it
These days I'm tired and low
And you don't care what you find
You're messing up all of it
These days you're tired

Then you forget the time to be
Free you walk in the line
Then you forget the time to be
Free you walk in the light's on

These days you find you're picking up all of it
These days you're tired and low
And you don't care what you find
You're losing all touch of it
These days you're tired

Then you forget the time to be
Free you walk in the line
Then you forget the time to be
Free you walk in the light's on
