

Oceanlab, Come Home

I don't know why you feel we can't just talk through...
Not just walk through
And leave me here

You leave a note and think that it's a clean break
No more heartache
You made that clear

I wish that I could back track
Stop time and turn the clocks back
Unpack your bag whilst waving the flag to keep you close to me

Come home
You know I didn't mean to say the things I said
Come home
Don't leave me here with all these thoughts inside my head
Come home
You know I didn't mean to say the things I said
Come home
Don't leave me here with all these thoughts inside my head

Rewind the lines and find the hidden meanings
Ten more screenings
Of our last fight

Sitting alone and knowing that I need you
As I remember
Our first night

I wish that I could back track
Stop time and turn the clocks back
Unpack your bag whilst waving the flag to keep you close to me

Come home
You know I didn't mean to say the things I said
Come home
Don't leave me here with all these thoughts inside my head
Come home
You know I didn't mean to say the things I said

Come home
Don't leave me here with all these thoughts inside my head

Running away from the truth this time and I
Wish that you knew what you left behind
When you running away when you left me out of my mind
Running away from the truth this time and I
Wish that you knew what you left behind
When you running away when you left me out of my mind

Come home
You know I didn't mean to say the things I said
Come home
Don't leave me here with all these thoughts inside my head
Come home
You know I didn't mean to say the things I said
Come home
Don't leave me here with all these thoughts insde my head (x2)
