

Oceans Of Sadness, Eyes Like Fire

WHY... fall into CRIES... for you fool?

With eyes like fire, you burn desire...

NO!

Surround him and hurt him

And kill him 'cause after all,

It's a f*cked up world

But this is

NOW...

WOW... Feel it to? It GROWS... in you to!

SO fire higher, and burn desire....

NO!

Surround him and hurt him

And kill him 'cause after all,

It's a f*cked up world

But this is

NOW...

We'll try to hold on... a hope... a...

Hope that we create to cover all wrong,

Hope that we use to hold on and stay strong,

Hope that we need to keep warm during the night...

We'll try to believe that perception is peace

Try to be perfect and always achieve

Hope that we need to keep warm during the cold, cold night!

We'll try to hold on... a hope...

SURROUND

AND CROWN

No... Please don't...
