

# October Nites, It's Over Now

So I don't know, What to do  
Since you are wasted and falling down  
Say, Say don't turn, Don't, Don't walk out  
But all these signals are fading out  
Do you think you're invincible?  
And above it all, Chase that drink down  
Soon it will make you,  
See your world come slowly crashing down  
Sometimes it's, Better to  
Leave all these questions and answers to  
Your actions, I pray someday  
You'll see the damage you've done to me  
Do you think you're invincible?  
And above it all, Chase that drink down  
Soon it will make you,  
See your world come slowly crashing down  
Tempt fate  
Take a dance with death  
Can you feel now?  
What I see, You know, You needed me  
Fall down, It's over now  
You know that, You take these risks  
Something like this is just so foolish  
You're so young, And nave  
Why can't you open your eyes and see  
Do you think you're invincible?  
And above it all, Chase that drink down  
Soon it will make you,  
See your world come slowly crashing down  
Tempt fate  
Take a dance with death  
Can you feel now?  
What I see, You know, You needed me  
Fall down, It's over now  
The time it has come (time has come)  
I've spent way too much (spent way too much)  
Time on you (time on you)  
Tempt fate  
Take a dance with death  
Can you feel now?  
What I see, You know, You needed me  
Fall down, It's over now
