

Odds, Sweetness & Love

You're so far out
that you've gone right in
and you're so turned in
that you've turned right off
Let's not forget about the reason
Let's not forget about the slow dance

'Cause I wanna know your sweetness & love
Taste the flow of your sweetness & love
Get down on the floor with your sweetness & love

If the sun falls out of your sky
can you find your way home?
If you look at everything that meets your eye
you will never be alone
Let's not forget about the seasons
Let's not forget about the slow dance

'Cause I wanna know your sweetness & love
Taste the flow of your sweetness & love
Get down on the floor with your
sweetness & love

Sweetness & love, sweetness & love
are staring at me and sharing it I'm impaled
Sweetness & love
Now I'm ready to have your sweetness & love
Sweetness & love, sweetness & love
Now I'm ready to have your sweetness & love
