

# ODESZA, Wide Awake (feat. Charlie Houston)

I've been wide awake, feeling  
People seem to change their feelings in time  
Did we make a mistake healing?  
It's more than I can take not feeling too fine  
Something 'bout you  
You  
You

Waiting at the party for you  
Your loving got me acting like a fool  
Fool  
Waiting at the party for you  
Your loving got me acting like a fool  
Fool

I hate the way it aches, breathing  
Thought that I could put these feelings aside  
Something in my system's fading  
Making me feel sober about what's on my mind  
Something 'bout you  
You  
You

Waiting at the party for you  
Your loving got me acting like a fool  
Fool  
Waiting at the party for you  
Your loving got me acting like a fool  
Fool
