

# Of Montreal, Nicki Lighthouse

Everybody does the same things  
Everybody's the same  
Everyone that is 'cept for my friend Nicki Lighthouse  
She is from the jungle and has never rode a bike  
Instead she rides on apes and llamas  
everywhere she goes

And everywhre she goes the boring people say  
&quot;There she goes again  
the strangest girl that's ever been&quot;

Everybody thinks the same things  
Everybody's the same  
Everyone that is 'cept for my friend Nicki Lighthouse  
Where she's from forward is backward

and down is up  
so she eats her dinner on the ceiling  
and wallpapers the floor

And everywhre she goes the boring people say  
&quot;There she goes again  
the strangest girl that's ever been&quot;

I'm a big fan Nicki Lighthouse  
You know that I am  
You know that I am
