

# Offset, Last Call

Come pick me up  
Cause Ive had it up to here  
But thats not enough  
A little more cant hurt so fill it up  
Then grab yourself a beer and lift it up.

Heres to better days that lie ahead of us.  
They may come soon

I feel it coming like a cold went down my neck  
Our times are right  
So here we are  
Cause weve been drinking, singing right here at the bar  
And here we are  
At first to change

Just hear me out  
Lets drive out past the lights outside of town  
Were only here so long so let it out  
The whole world seems to shake when its coming down  
But tomorrow you know right where Ill be found  
We never change  
At least when rearing when the nights are all the same

I feel it coming like a cold went down my neck  
Our times are right  
So here we are  
Cause weve been drinking, singing right here at the bar  
And here we are  
At first to change

Come pick me up  
Cause Ive had it up to here but thats not enough  
A little more cant hurt so fill it up  
Then grab yourself a beer and lift it up  
Heres to putting off our date with destiny

I feel it coming like a cold went down my neck  
Our times are right  
So here we are  
Cause weve been drinking, singing right here at the bar  
And here we are  
At first to change  
To change
