

# Old Man's Child, In Black Endless Void

[Lyrics by Galder and Jardar]

Beyond the limits of our imaginations  
Beyond the stars of the unknown  
The secrets behind a black endless void  
The unexplored lies ahead

Dark but luminous  
In a world surreal  
The ominous force  
Space conceals

In twilight's timeless terror  
The black holes of hell's abyss

Far away from the sun's light  
In dark infinity, the cosmic realms  
Far away from the earth's surface  
We will fly among the angels of sin
