

Olivia Newton-John, Don't Move Away

(Avon/Spiro)

Ummmm..I wanted you,but I wouldn't let myself admit it
You know it's true and my love is here
So come and get it,too
I used to say I could take you love or I could leave it
But here today I'm confessing that I'm nothing without you

Don't move away when you know I really want you
Let me show you that I want you
Let me love you like I want to
Let me try again
I won't say goodbye again
If you try again
you will never cry again

No,I used to feel it would be so easy to forget you
Your love is real and I know how many times I've let you down
Baby,

Don't move away when you know I really want you
Let me show you that I want you
Let me love you like I want to
Let me try again,I won't say goodbye again
If you try again,you will never cry again

Don't move away when you know I really want you
Let me show you that I want you
Let me love you like I want to
Let me love you like I want to
Let me love you like I want to

Don't move away
Don't move away
I won't go,no no
Please stay
Don't move away
Don't move away
I got you baby
