

# Olivia Newton-John, Fine Line

(B. Gibb/G. Bitzer)

Now I like the way you move  
Anyway that you make it work  
And you offer something new  
And the doorway is open for me  
Now a man needs a woman  
And I know that for me is true  
And life, we got too much reality  
There's gotta be other things to do

Me electrify you  
Simply mystify you  
Very strange but nice  
Now somebody wrong  
And somebody right  
And somebody else  
It's either one thing or the other

It's a fine line between talking and giving  
It's a fine line between dancing and making love  
It's a fine line

I can see the possibility  
Anyway that you wanna be  
We all got secret emotions  
Anytime after the midnight hour  
Now love, don't get short on the action  
Anyway, you got the energy  
My heart is a part of the plans you made  
You're the star of my sexual fantasy

Me electrify you  
Simply mystify you  
Hope you stay all night  
I'll have you for dinner or breakfast in bed  
Either way I get you  
For the worse or for the better

It's wild, it's weird, it's what we think about  
This ain't no strip club, shame on you, 'cos  
You know somebody that  
Got a bead on what you need  
Don't sacrifice your love  
You analyze, don't minimize  
What only you can rise above now  
I know that, don't you think  
I know you're watching me  
You got no claim to make  
Well, that's no excuse  
And I know the truth  
You got brain-drain  
Long as there's a game to play  
Sad but there's only one fool to blame

You don't think my love should tie you down  
I say love can turn your groove around  
Watch me please you  
Watch me play your game  
Someday love will make your water flow
