

Olivia Newton-John & Gene Kelly, Whenever You

GENE KELLY:

No other face could take you off my mind
You're so refined

OLIVIA NEWTON-JOHN:

You're much too kind
I have to warn you I'm never gonna set you free
'Cause I was born to love you for eternity

GENE KELLY and OLIVIA NEWTON-JOHN:

Whenever you're away from me
Wherever you go
You're never far away from me
I want you to know
I only have to close my eyes dear
And suddenly I'm where you are
You better never stray
'Cos I'll never be far away

GENE KELLY:

On every breeze I seem to hear your name
My heart's aflame

OLIVIA NEWTON-JOHN:

I feel the same
I'd fall apart dear
If you let the feelin' end
Don't break a heart dear
Nobody else could mend

GENE KELLY and OLIVIA NEWTON-JOHN:

Whenever you're away from me
Wherever you go
You're never far away from me
I want you to know
I only have to close my eyes dear
And suddenly I'm where you are
You better never stray
'Cos I'll never be far away

(Instrumental break)

GENE KELLY and OLIVIA NEWTON-JOHN:

Whenever you're away from me
Wherever you go
You're never far away from me
I want you to know
I only have to close my eyes dear
And suddenly I'm where you are
You better never stray
'Cos I'll never be far away

OLIVIA NEWTON-JOHN:

You better never stray,
'Cos I'll never be far away
